### LISTING OF CLAIMS

This listing of claims will replace all prior versions, and listings, of claims in the application:

Claim 1 (currently amended): A prosthetic foot comprising:

an L-shaped frame having a unitary first axis and a second axis, the first axis forming a substantially horizontal leg of the L-shaped frame;

a connector connected to the frame, the connector being adapted to ~~rotate~~ <sup>rotate</sup> pivot about the unitary first axis; and

a footplate attached to the connector, the footplate defining a first end and a top plane such that the footplate is also adapted to ~~rotate~~ <sup>rotate</sup> pivot about the unitary first axis and flex with respect to the second axis.

Claim 2 (original): The prosthetic foot of Claim 1 wherein the frame is a tubular L-shaped member.

Claim 3 (original): The prosthetic foot of Claim 1 wherein the frame is manufactured from a material, the material selected from the group consisting of high strength polymer and composite material.

Claims 4-22 (withdrawn)
